

Help prevent the spread of COVID-19

Wear a mask if you are unvaccinated and frequently wash hands in stable and increasing positive test rate environments. Adopt enhanced sanitization procedures as positive test rate increases.

Frequently wash your hands.

Wet hands

Apply soap

Rub hands palm to palm scrubbing between fingers for a minimum of 20 seconds

Rinse hands

Dry using a clean paper or cloth towel or other hands-free drying device

Provide access to hand sanitizer, sanitizer stations.

Apply hand sanitizer to one of your hands

Rub both hands together until all surfaces are covered

Allow sanitizer to dry

Disinfect frequently used or shared surfaces.

Tabletops, desks and cooking surfaces

Door handles and faucets

Handrails and elevator buttons

Microphones
